

## **Come along to the Merchant Taylor's Hall, Aldwark, York on Tuesday 29 November 2-7pm**

The Environment Agency, Health and Safety Executive, Oil and Gas Authority, and Public Health England are hosting an informal drop in session to explain how they work together to regulate the onshore oil and gas industry.

These agencies work together to assess the impacts of the oil and gas industry, to oversee industry operations, and to ensure that any exploration and development, including fracking, is done in a way to protect people and the environment.

The session offers you an opportunity to ask questions about onshore oil and gas regulation.

**Everyone is welcome to attend at any time between 2-7pm.**
